We ship the RamperPro to customers world wide. You don't have to pay VAT if we ship your order to countries that are not member of the EU or outside Europe. This means that customers from the US, Canada, Australia (and all other non EU countries) will be invoiced without VAT.

Our shopping system might show VAT included prices, but VAT will not be invoiced during checkout when you enter a shipping country outside the EU/Europe. Our shopping system will show shipping costs for the following destinations outside Europe:

- United States
- Canada
- Australia
- New Zealand

Please contact us directly when your desired shipping destination is not listed during check out. We need the following information if you would like to order the RamperPro:
