

RamperPro firmware 3066 is available for Sony A7 shooters

Door andre op vr, 07/22/2016 - 23:13

We just released RamperPro firmare 3066 for the RamperPro3 only. This fixes an issue where Sony A7 cameras wouldn't always ramp properly. This issue was only existing on the new RamperPro3. RamperPro1 and RamperPro2 users don't need to update to 3066.
