

ElysiaVisuals has become an official DitoGear™ dealer

Submitted by andre on Sun, 09/08/2013 - 03:24

[1]

We are very proud to announce that ElysiaVisuals is now an official DitoGear™ dealer. We believe that the DitoGear™ product line is a welcome addition to our current offering of advanced motion control equipment.

DitoGear™ motion offers professional motion control hardware for the most demanding time lapse photographer and film makers. They use advanced and very accurate servo motors that enable you to make every complex move over and over again. DitoGear™ offers various controllers to control 3, 4 or even 5 axis like slide, pan, tilt, zoom and focus. We will explain these various options on our website in due time.

We can deliver all DitoGear™ equipment from this moment on. You are more than welcome to contact us if you are interested or have any questions. We will gradually add the complete DitoGear™ product line to our online store and we will explain more about this exiting equipment on this blog.
